If you are using an iPad, you can also select **Kindle Book** to complete checkout on Amazon's website and send the title to your Kindle or Kindle reading app.

OverDrive Read eBooks can be read from OMC's in-app browser, or directly from your device's browser.

EPUB eBooks open automatically in OMC so you can begin reading as soon as the download is finished. OMC's features include bookmarking, brightness controls, night mode, text size adjustment, orientation lock, the option to return an eBook, and more.

MP3 audiobooks open automatically in OMC so you can begin listening as soon as the first part is downloaded. OMC's features include bookmarking, a volume slider, skip back 15 seconds, a sleep timer, the option to return an audiobook, and more.

To **return titles early**, see instructions on the next page.

Returning Titles Early

If you finish eBooks or audiobooks early, you can return them before the end of the lending period using OverDrive for iOS.

From the app's bookshelf, tap and hold a title to display its return options.

You can **Return** a book to the library, which also deletes it from your device.

You can **Delete** a book from your device, but you will still have it checked out to your library account.

Note: In the legacy version of OverDrive's

app, tap the  icon to display the return/delete options.
